

## GP Alkaline Industrial Batteries

GP primary Alkaline Cylindrical batteries. Suitable for applications that require a high energy density such as medical equipment, IoT and home security.

GP Alkaline Industrial Batteries possess a higher energy density and hence provide long lasting power to support industrial usage. They are available in a wide variety of sizes to fit most applications. They are designed to serve different application needs, cover all light, moderate and high drain applications.

## FEATURES

- Optimized current and continuous drain
- Superior performance at all drain levels
- Wide operating range of temperatures
- Environmentally friendly
- Comply with IEC, ANSI and JIS standards
- Free from mercury, lead and cadmium

## APPLICATIONS

- Medical equipment
- Security sensors
- Home security
- Measuring devices
- Electronic door locks
- Remote controls
- IoT
- Thermometers
- Portable lighting
